STRONGEST PROOF

AMAZON OPS

107

people led in Amazon operations

SAAS/PRODUCT

2 yrs

SaaS pricing and revenue workflows

AUTOMATION

4

featured automation/data projects

REMOTE

C2

English, plus Spanish and Portuguese

TARGET ROLES

Implementation Consultant | Solutions Consultant | RevOps Analyst | Product Ops Analyst | BI/Data Analyst | Technical Product Specialist

CORE OPERATING SYSTEM

Operate: Understand the work

field workflows, KPI follow-up, QA/QC, handoffs

Analyze: Find the signal

SQL, pricing analysis, market research, dashboards

Automate: Remove repeat work

Python, ETL, PDF/OCR, DOCX/Excel generation

Ship: Make it usable

React, Next.js, TypeScript, FastAPI

Communicate: Bridge teams

English C2, Spanish native, Portuguese C1, stakeholder follow-up

SELECTED EXPERIENCE

Remote workflow, data, and web-systems builder

July 2025 - Present

Independent Operations & Data Automation Projects

Spain-based independent project work for practical business workflows.

- Built tools for inspection reporting, solar project organization, real-estate pricing intelligence, QA/QC traceability, equipment-data extraction, dashboards, and document automation.
- Worked across React/TypeScript, Next.js, FastAPI, Python, SQL/PostgreSQL, SQLite, PDF/OCR workflows, DOCX generation, and spreadsheet automation.
- Focused on operational usefulness: cleaner inputs, clearer states, validation, repeatable outputs, and handoff-ready reporting.

Remote SaaS pricing, revenue, and product operations

June 2023 - June 2025

PriceLabs

Revenue-management SaaS for short-term rental pricing.

- Worked with pricing analysis, market research, product behavior investigation, customer-facing product questions, and revenue-management workflows.
- Translated pricing/product issues into clearer operational follow-up for customers and internal stakeholders.
- Built domain credibility in SaaS, hospitality revenue management, dashboards, pricing logic, and remote cross-functional work.

Remote SaaS customer and product operations

2021 - 2023

PerchPeek

Relocation-technology environment with customer-facing operational workflows.

- Supported remote SaaS operations by combining customer communication, workflow follow-up, and product troubleshooting.
- Built stronger judgment around implementation gaps, user friction, and the handoff between business process and product behavior.

Manager and co-founder

May 2021 - January 2023

Padme Yoga

Local wellness business with operations, scheduling, commercial follow-up, and team coordination.

- Managed day-to-day operations, scheduling, stakeholder communication, revenue initiatives, and team coordination.
- Implemented operational and commercial improvements that contributed to a 30% increase in monthly revenue.

Operations, logistics, QA, and team leadership

2018 - 2021

Amazon and service operations

High-volume operational environments with KPI ownership and process discipline.

- Led and coordinated operational work including a 107-person Amazon team, QA follow-up, inventory control, KPI tracking, and action planning.
- Developed the operating rhythm that now informs implementation, product operations, BI, and automation work.

Manager

January 2018 - June 2019

Badajoz Speed Queen

Service-business operations with planning, accounts, marketing, and daily execution.

- Managed accounts, planning, marketing, daily operations, data analysis, and stakeholder communication.

- Helped increase revenue by 55% year over year through operational and commercial improvements.

Industrial engineer

2017 - 2018

Industrial engineering and production improvement

Food-production process improvement and line-launch support.

- Worked on production automation, operator coordination, OEE analysis, cycle-time reduction, line launch support, and capacity improvement.

FEATURED PROJECT PROOF

Inspection Report Automation Platform

Structured inspection report workflow with generated DOCX output

SolarTrack Workflow PWA

Deployed PWA for visits, reports, contacts, maps, imports, and operational follow-up

Real Estate Pricing Intelligence MVP

Market intelligence pipeline with geospatial storage, dashboards, and reporting flows

Industrial QA/QC Data Automation

Traceable QA/QC and equipment-data workflow from documents to validated outputs

EDUCATION

- MBA, Universidad Isabel I, Barcelona, Spain, 2020.
- Master in Big Data and Business Intelligence, ISEB, Barcelona, Spain, 2019. Cum Laude.
- Industrial Engineering Degree, Universidad Yacambu, Barquisimeto, Venezuela, 2018.
