SELECTED EXPERIENCE

Independent Operations & Data Automation Projects

July 2025 - Present

Independent Operations & Data Automation Projects

Spain-based independent project work for real business processes.

- Built practical tools for inspection reporting, solar project organization, real-estate pricing intelligence, QA/QC traceability, equipment-data extraction, dashboards, and document automation.
- Worked across React/TypeScript, Next.js, FastAPI, Python, SQL/PostgreSQL, SQLite, PDF/OCR, DOCX generation, and spreadsheet automation.
- Focused on implementation details that reduce manual checking, keep records clear, and make reporting easier to repeat.

Remote SaaS pricing, revenue, and product operations

June 2023 - June 2025

PriceLabs

Revenue-management SaaS for short-term rental pricing.

- Worked with pricing analysis, market research, product behavior investigation, customer-facing product questions, and revenue-management processes.
- Helped turn pricing/product issues into clearer follow-up for customers and internal teams.
- Built domain experience in SaaS, hospitality revenue management, dashboards, pricing logic, and remote team work.

Remote SaaS customer and product operations

2021 - 2023

PerchPeek

Relocation-technology environment with customer-facing operations.

- Supported remote SaaS operations through customer communication, follow-up, and product troubleshooting.
- Built stronger judgment around implementation gaps, user friction, and the handoff between business needs and product behavior.

Manager and co-founder

May 2021 - January 2023

Padme Yoga

Local wellness business with operations, scheduling, commercial follow-up, and team coordination.

- Managed day-to-day operations, scheduling, customer communication, revenue initiatives, and team coordination.
- Implemented operational and commercial improvements that contributed to a 30% increase in monthly revenue.

Operations, logistics, QA, and team leadership

2018 - 2021

Amazon and service operations

High-volume operational environments with KPI ownership and process discipline.

- Led and coordinated operational work including a 107-person Amazon team, QA follow-up, inventory control, KPI tracking, and action planning.
- Developed the discipline that now informs implementation, product operations, BI, and automation work.

Manager

January 2018 - June 2019

Badajoz Speed Queen

Service-business operations with planning, accounts, marketing, and daily execution.

- Managed accounts, planning, marketing, daily operations, data analysis, and customer communication.
- Helped increase revenue by 55% year over year through operational and commercial improvements.

Industrial engineer

2017 - 2018

Industrial engineering and production improvement

Food-production process improvement and line-launch support.

- Worked on production automation, operator coordination, OEE analysis, cycle-time reduction, line launch support, and capacity improvement.

PROJECT EXAMPLES

Inspection Report Automation Platform

Inspection projects can be reviewed, cataloged, and exported as DOCX reports

Real Estate Pricing Intelligence MVP

Market pricing context with geospatial storage, dashboards, and daily reports

SolarTrack Operations PWA

Deployed PWA for visits, reports, contacts, maps, imports, and operational follow-up

Industrial QA/QC Data Automation

Traceable QA/QC and equipment-data records from documents to validated exports
