Industrial Engineer with Amazon operations leadership, remote SaaS product experience, and hands-on automation projects across reporting, pricing, QA/QC, dashboards, and document workflows.

TARGET ROLES

Implementation Consultant; Solutions Consultant; Technical Consultant; Product Operations Specialist; Technical Product Specialist; RevOps / Revenue Operations / Pricing Analyst; Operations-heavy BI/Data Analyst.

EXPERIENCE

Independent Operations & Data Automation Projects | Independent | Remote, Spain | July 2025 - Present

- Built practical tools for inspection reporting, solar project organization, real-estate pricing intelligence, QA/QC traceability, equipment-data extraction, dashboards, and document automation.
- Worked across React/TypeScript, Next.js, FastAPI, Python, SQL/PostgreSQL, SQLite, PDF/OCR, DOCX generation, and spreadsheet automation.
- Focused on implementation details that reduce manual checking, keep records clear, and make reporting easier to repeat.

Product Specialist | PriceLabs | Remote | June 2023 - June 2025

- Worked with pricing analysis, market research, product behavior investigation, customer-facing product questions, and revenue-management processes.
- Helped turn pricing/product issues into clearer follow-up for customers and internal teams.
- Built domain experience in SaaS, hospitality revenue management, dashboards, pricing logic, and remote team work.

Customer Success Specialist | PerchPeek | Remote | May 2022 - May 2023

- Supported remote SaaS operations through customer communication, follow-up, and product troubleshooting.
- Built stronger judgment around implementation gaps, user friction, and the handoff between business needs and product behavior.

Manager and Co-founder | Padme Yoga | Badajoz, Spain | May 2021 - January 2023

- Managed day-to-day operations, scheduling, customer communication, revenue initiatives, and team coordination.
- Implemented operational and commercial improvements that contributed to a 30% increase in monthly revenue.

Area Manager | Amazon | Spain | October 2020 - February 2021

- Led and coordinated a 107-person operations team, including quality follow-up, inventory control, KPI tracking, and action planning.
- Built the operational discipline that now informs implementation, product operations, BI, and automation work.

Logistics Specialist | Amazon | Spain | July 2019 - October 2020

- Worked across logistics operations, issue follow-up, inventory processes, and performance tracking.
- Used operational metrics and cross-functional communication to support service reliability and process execution.

Manager | Badajoz Speed Queen | Badajoz, Spain | January 2018 - June 2019

- Managed accounts, planning, marketing, daily operations, data analysis, and customer communication.
- Helped increase revenue by 55% year over year through operational and commercial improvements.

Industrial Engineering Intern and Thesis Project | Organizacion El Tunal | Barquisimeto, Venezuela | January 2017 - December 2017

- Worked on production automation, operator coordination, OEE analysis, cycle-time reduction, line launch support, and capacity improvement.

SELECTED PROJECT EXAMPLES

Inspection Report Automation Platform

React/TypeScript + FastAPI local-first report builder for photos, PDFs, annotations, OCR, catalog management, and DOCX export. Improved evidence-to-report traceability and reduced repeated report formatting.

SolarTrack Operations PWA

Next.js / TypeScript PWA for visits, advisor assignments, report status, contacts, maps, imports, dashboards, authentication, persistence checks, and follow-up visibility.

Industrial QA/QC Data Automation

Python, Excel, PDF processing, SQLite, and Pandas workflows for document indexes, coverage maps, validation summaries, anomaly reports, and traceable exports. Public sample covers 1,594 records, 98 systems, and 13,351 checks.

Real Estate Pricing Intelligence MVP

Python scraping/ETL, PostgreSQL/PostGIS, deduplication, confidence/freshness metrics, dashboarding, and daily/weekly reporting for pricing context.

SKILLS

Implementation and operations: onboarding, handoffs, issue triage, follow-up, status modeling. Data and reporting: SQL, pricing views, dashboards, QA checks, data quality. Internal tools and automation: React, Next.js, TypeScript, Python, FastAPI, PostgreSQL, SQLite, PDF/OCR, DOCX/Excel.
