

Mickoll Marin

SaaS Implementation & Operations Automation Specialist

Badajoz, Spain | +34 603 687200 | mickmaring@gmail.com | [linkedin.com/in/mickollmarin](https://www.linkedin.com/in/mickollmarin) | Portfolio: [Interactive CV](#)

PROFILE

Industrial Engineer and remote SaaS/product-operations specialist with 7+ years across Amazon operations, customer-facing SaaS, pricing/revenue analysis, process improvement, and hands-on automation. Turns messy operational workflows into structured processes, data pipelines, dashboards, documentation, and lightweight internal tools using Python, SQL, React/TypeScript, FastAPI, PostgreSQL/SQLite, Excel/Sheets, and AI-assisted extraction workflows. Strong fit for: Implementation Consultant, Solutions Consultant, Product Operations, RevOps, BI/Data Analyst, or technical customer-facing operations roles where business judgment and technical fluency both matter.

CORE SKILLS

SaaS implementation & product operations: requirements discovery, onboarding, issue triage, workflow mapping, user enablement, UAT, documentation, handoffs, stakeholder management, product feedback.

Data, revenue & business analysis: SQL, Python, Excel/Google Sheets, KPI analysis, pricing/revenue analysis, market research, ETL, validation, dashboards, data QA.

Automation & internal tools: React, TypeScript, Next.js, FastAPI, REST APIs, PostgreSQL/PostGIS, SQLite, PDF/OCR, DOCX/Excel automation, web scraping, Git/GitHub, basic testing workflows.

Domains: short-term rental pricing, relocation, logistics, inspection reporting, industrial QA/QC, real-estate market intelligence, service operations.

Languages: Spanish native, English C2, Portuguese C1.

SELECTED EXPERIENCE

Independent Operations & Data Automation Projects | Self-employed / portfolio work | Remote, Spain | July 2025 - Present

- Built a portfolio of real-work automation tools covering inspection reports, solar project coordination, real-estate pricing intelligence, industrial QA/QC traceability, equipment-data extraction, dashboards, and document automation.
- Designed a local-first inspection report platform with React/TypeScript and FastAPI to manage projects, assets, photos, annotations, OCR, issue catalogs, geocoding/map support, and DOCX export; improved evidence-to-report traceability and reduced repeat formatting work.
- Built a real-estate pricing intelligence MVP using Python scraping, ETL normalization, PostgreSQL/PostGIS, deduplication, freshness/confidence metrics, dashboards, and daily/weekly reporting to turn fragmented listing data into pricing context.
- Automated industrial QA/QC documentation by normalizing Excel/PDF sources, generating a master document index, mapping coverage gaps and anomalies, and producing traceable Excel deliverables; public sample covers 1,594 records, 98 systems, and 13,351 checks.
- Built SolarTrack Operations PWA with Next.js/TypeScript, Prisma/Neon, dashboard KPIs, calendar views, advisor assignments, report status, contacts, maps, imports, and persistence QA checks.
- Managed project scope, validation logic, privacy/sanitization, QA review, and documentation independently; used AI-assisted development/extraction while keeping final data quality under human review.

Product Specialist | PriceLabs | Remote - Chicago, USA | June 2023 - June 2025

- Supported short-term rental pricing and revenue-management workflows by researching markets, analyzing competitor behavior, and helping users interpret dynamic pricing recommendations.
- Investigated account-level pricing, data, and product-behavior issues; translated findings into clear customer recommendations, internal feedback, and actionable next steps for product and operations teams.
- Built domain experience in SaaS dashboards, pricing logic, revenue management, customer enablement, market behavior, and remote cross-functional collaboration.

Customer Success Specialist | PerchPeek | Remote - London, UK | May 2022 - May 2023

- Coordinated B2B and B2C relocation operations across customers, suppliers, and internal teams in a remote international environment.
- Helped reduce customer support response times by 15% through improved issue triage, communication, and operational follow-up.
- Identified onboarding and process-friction patterns, helping bridge customer needs, product behavior, and operational constraints.

Manager & Co-founder | Padme Yoga | Badajoz, Spain | May 2021 - January 2023

- Managed daily operations, scheduling, revenue initiatives, stakeholder communication, and team coordination for a local wellness business.
- Implemented operational and commercial improvements that contributed to a 30% increase in monthly revenue.

Area Manager | Amazon | Milton Keynes, United Kingdom | October 2020 - February 2021

- Led 107 employees across quality assurance, inventory control, and warehouse process execution in a high-volume fulfillment environment.
- Monitored operational KPIs, prepared action plans, and coordinated improvements to support quality, productivity, and target achievement.

Logistics Specialist | Amazon | Barcelona, Spain | July 2019 - October 2020

- Supervised last-mile logistics operations across multiple locations, coordinating real-time decisions and issue resolution with European teams.
- Used operational metrics and cross-functional communication to support service reliability and process execution.

Manager | Badajoz Speed Queen | Badajoz, Spain | January 2018 - June 2019

- Managed accounts, planning, marketing, daily operations, data analysis, and stakeholder communication for a service business.
- Helped increase revenue by 55% year over year through operational and commercial improvements.

Industrial Engineering Intern and Thesis Project | Organizacion El Tunal | San Felipe, Venezuela | Jan 2017 - Dec 2017

- Supported the launch of a production line, improving material flow and reducing process bottlenecks.
- Developed and implemented a technical-economic automation project that reduced cycle times by 25% and increased production capacity by 30%.

SELECTED PROJECT PORTFOLIO

Inspection Report Automation Platform: React, TypeScript, FastAPI, OCR, DOCX generation, image annotation, project storage, maps/geocoding.

SolarTrack Operations PWA: Next.js, TypeScript, Prisma, Neon/PostgreSQL, dashboards, calendars, imports, maps, report tracking.

Real Estate Pricing Intelligence MVP: Python, scraping, ETL, PostgreSQL/PostGIS, deduplication, confidence scoring, dashboards, market reports.

Industrial QA/QC Data Automation: Excel/PDF processing, master index generation, validation outputs, traceability reporting, SQLite/Pandas.

EDUCATION & CERTIFICATION

- MBA, Universidad Isabel I, Barcelona, Spain, 2020.
- Master in Big Data and Business Intelligence, ISEB, Barcelona, Spain, 2019. Cum Laude.
- Industrial Engineering Degree, Universidad Yacambu, Barquisimeto, Venezuela, 2018.
- EF SET English Certificate, 79/100, C2 Proficient.
